

WATERWARE

# Flow Regulated Washer Insert

WSW Instructions

To fit 15mm (1/2") flexi hose or shower head.

Black = 6L/min  
White = 8L/min  
Blue = 10L/min

Ensure correct direction of flow and partially insert the regulator into the intended hose or fitting. Carefully re assemble the fittings which will fully insert the regulator to the bottom of the threads. Unscrew to check correct insertion then complete assembly by hand tightening the fittings.

No additional sealing washer required.
