

iStone Round Basin

WD38334BMB

iStone Round Basin 380 x 110mm Black Marble

Natural Marble Stone basin

Carved from a solid marble stone which is dimensionally accurate. As marble is a natural stone, there may be slight variations in each individual basin's appearance.

Because marble is a natural product it is therefore subject to colour variations, crystallization marks and surface variations.

What not to use on marble:

Please do not use cleaners that contain strong chemicals such as bleach, ammonia, or acid. Even an abrasive cleaner is not necessary. These are all too harsh for the porous surface.

CARE AND USE

Marble and Natural Stone

Marble is very easy to maintain, however with the surface being porous it does need a little care. A regular quick wipe with a clean cloth & tap water, or methylated spirits dabbed on to a clean cloth, or dishwashing liquid and warm water can be used. This will break down greasy and oily residue from grooming products.

LIMITED PRODUCT WARRANTIES

To be read in conjunction with and subject to all terms and conditions contained in the Waterware 'Producer Statement' available on-line (<http://www.waterware.co.nz/media-downloads>) From date of purchase, Waterware Services warrants products from the following categories to be free from manufacturing defect subject to exclusions (if applicable):
