

WMBUSTXE

BMETERS Pulse Meter Transmitter

Technical Specification

Range: Up to 300m in ideal conditions

Transmission frequency / power: 867.45MHz / less than 10mW

Power supply: 3.6V Lithium battery (replaceable)

Battery life 10 years + 1 year of data storage (in normal working conditions)

Working temperature: from -10°C to +55°C

Operational mode: Wireless

Configuration: Wireless

Sensor reading: 2 inputs REED sensors

Shielding rate IP65

Dimensions: 30mm x 67mm x 67mm

Data transmission frequency: Programmable

Data transmission encryption: Optional

Type of reading: Monodirectional

Warranty
