

COMBO25

Caleffi 25mm Combo Set

Technical Specification

Tempering Valve:

Recommended working pressure 100 - 500kPa (balanced)

Socket connections and cold check valve only

Temperature range adjustable 30 - 65°C

Temperature control +/- 2°C

Max. operating temperature 85°C

Safety Relief Valve:

20mm inlet

800kPa

Female connections

Temperature range: 5–95°C

Pressure Reducing Valve:

25mm unions with guage

Max flow rate of up to 60L/min @2m/s

Maximum upstream pressure 2500kPa

Downstream pressure range adjustable 100 - 600kPa

Max. operating temperature 60°C

Application

The Caleffi 25mm Combo Set is used in plumbing systems to control, temperature, pressure and safety functions and is installed mostly in hot water cylinder cupboards.

Warranty

5 years parts and labour

Features

High capacity combo set for large hot water cylinders >250L

30-65°C Caleffi 5216 tempering valve with cold check

50-600kPa Caleffi 535 PRV valve and strainer

800kPa Caleffi 531 cold water expansion valve

2 x 25mm Airaga male/female ball valves

25mm Caleffi 327 ball/check valve
