

Technical Specification

Medium: water, glycol solutions

Max. percentage of glycol: 30%

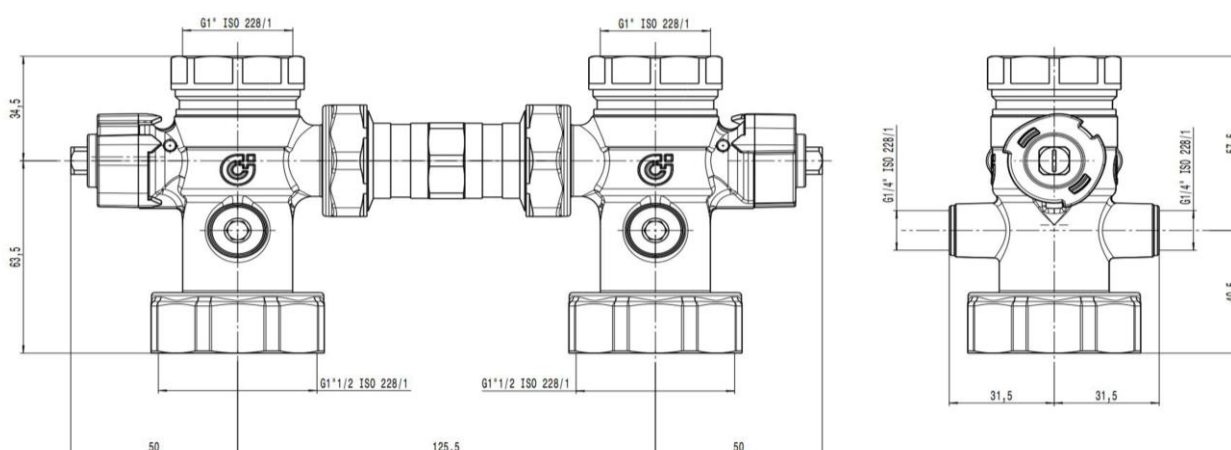

Maximum working pressure: 1000 kPa (10 bar)

Minimum working pressure: 80 kPa (0,8 bar)

Maximum working temperature: 100°C

Connections:

- system side: 1" F (ISO 228-1)
- Pump station connection 1&1/2" F union
- connection centre distance: 125 mm

Application

The Caleffi pump station separator kit, 25mm is used in heating & cooling systems to control functionality of the system and is installed mostly in plant rooms.

Warranty

5 years parts and labour

Features

Hydraulic separator kit for units 165, 166 and 167 series

Connection kit for use with a single Caleffi pump or mixing station. Isolation and hydraulic separation is built in.
