

WMIBUSWIRED

MBUS Inductive Wired Module (25-50mm)

Technical Specification

- Protocol: MBUS EN13757-2\3
- Power Supply: Non-replaceable lithium battery, rechargeable (automatic recharge from the BUS network). Backup for measuring function in absence of BUS voltage
- Working temperature range: from 1°C up to +55°C
- Protection Degree: IP68
- Alarms: Module removal, magnetic fraud attempt, backward flow, leakage detection
- Operational mode: Wired MBUS

Application

The MBUS Inductive Wired Module (25-50mm) is used in plumbing systems to measure water quantity and is installed mostly in plant rooms.

Warranty

5 years parts and labour

Features

The wired MBUS module attaches directly onto an MBUS ready Multi jet meter sizes 25mm-50mm.
