TOILET COLLECTION

In a world where style is a reflection of one's personality, our Boston toilet collection empowers you to curate a bathroom space that aligns with your individuality. With meticulous attention to detail, each toilet is not just a fixture but a work of art that enriches your daily rituals.

Step into a world of elegance and sophistication with our captivating range of toilets that redefine modern bathroom aesthetics. Crafted to perfection, each piece in our collection boasts a harmonious blend of form and function, transforming your bathroom into a sanctuary of style and luxury. Whether you're captivated by the timeless allure of a glossy finish or the understated elegance of a matte texture, our range of toilets is designed to cater to your discerning taste.

Imagine the sheer opulence of a glossy finish toilet gracing your bathroom, reflecting light and exuding an air of refined grandeur. Every curve, every contour is accentuated by the lustrous surface, creating a visual masterpiece that's sure to captivate. Meanwhile, for those who appreciate subtlety and tactility, our matte finish toilets offer a velvety touch that adds an extra layer of intimacy to your space. The matte surface not only feels exquisite but also eliminates unsightly fingerprints, maintaining its flawlessness with grace.

Dive into the depths of sophistication with our black toilet range, where boldness meets contemporary design. The black toilet transcends convention, introducing an element of drama that effortlessly elevates the overall aesthetic of your bathroom. On the other end of the spectrum, our white toilet collection is a nod to classic beauty and timeless elegance. The pristine purity of white, coupled with our modern designs, results in a visual symphony that resonates with simplicity and grace.

The Concealed Attraction of an Oxford In-Wall Cistern

An In-wall Cistern is mounted behind the wall, creating a practical and elegant finish to your bathroom or powder room.

These hidden gems subtly transform bathrooms into havens of understated style and space. Their unassuming presence brings forth measurable benefits:

Appreciate the hushed flushes that blend seamlessly into your bathroom or powder room. Revel in ease of maintenance where unbroken lines promote effortless cleaning.

In their concealment, in-wall cisterns provide modern conveniences - with simple designs and push button face plates that are easy to use, suiting users of all ages. A choice of finishes integrating into any décor.

Consider well before installation - determine optimal access points and wall depths through consultations with builders and plumbers. Though initial costs may be higher, the long-term gains in aesthetics and functionality prove worthwhile.

Let Oxford in-wall cisterns subtly elevate your bathrooms. Whether blending seamlessly within intimate retreats or family-friendly spaces, their understated presence promotes style.

OXFORD IN-WALL CISTERNS

Behind the wall flushing systems

The Oxford Pneumatic Slim In-Wall Cisterns and Faceplates are a cutting-edge solution for modern bathrooms. These innovative cisterns are designed specifically to be used with Oxford faceplates and wall hung and floor pans. The cisterns offer a seamless and sleek installation with their pneumatic flushing mechanism, and they provide a powerful and efficient flush every time, surpassing traditional mechanical mechanisms.
