## CARE AND USE

limescale

0800 WATERWARE

**Quarry Concrete Basins** It is best practice to avoid the use of abrasive cleaners, soaps or harsh scrubbers that could potentially wear down the sealer. We recommend using mild, nonabrasive, non-ammonia, non-acidic cleaners. General cleaning is best done using a soft cloth and a mild soap of neutral pH. It is recommended to apply a wax to maintain the concrete sink every 6 months, especially in areas that are prone to
