

HPG10

Grant Aerona Heat Pump 10kW

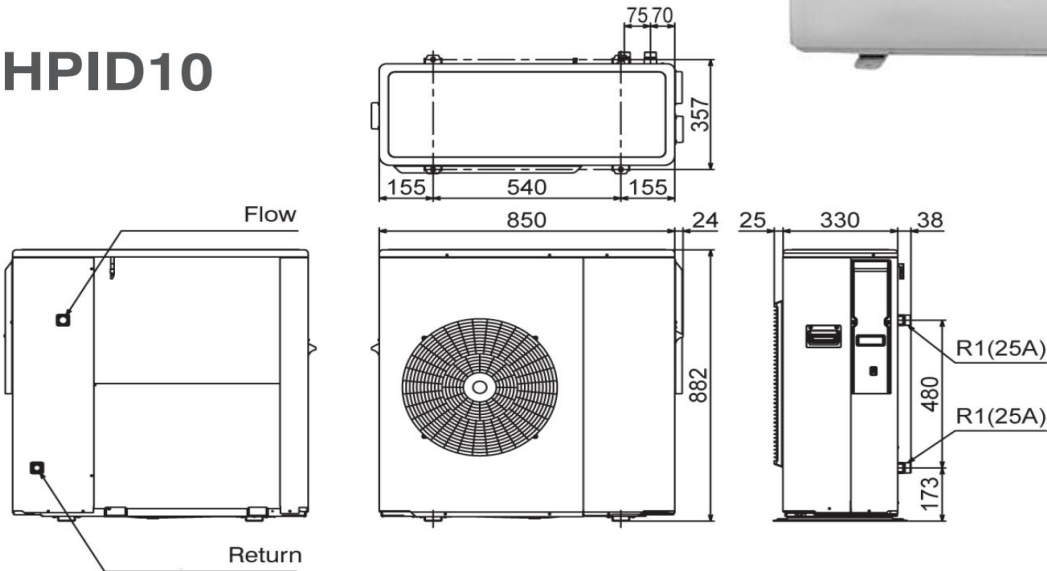

Technical Specification

- Heat output: 10kW (Water 35°C / Air 7°C D.B)
- COP: 4.35 (30/35°C / 7°C D.B)
- Power supply: 230V/1Ph/50Hz
- Max heating temp: 55°C
- Sound power level (40/45°C / 7°C D.B): 67dBa
- Dry weight: 75kg

HPID10

Application

The Grant Aerona Heat Pump 10kW is used in heating systems to generate hot and cold water using electricity and is installed mostly outside the plant room.

Warranty
